

UNION TERRITORY OF PONDICHERRY

ABSTRACT OF STATISTICS 1963 & 1964

Issued by
BUREAU OF STATISTICS & EVALUATION
GOVERNMENT OF PONDICHERRY

INTRODUCTION

The present issue of the Abstract of Statistics is the sixth in the series. Due to the national emergency, the issue relating to the year 1962-63, which was due in 1963-64, could not be published. In order to make good the consequent time lag, the data for 1962-63 and 1963-64 have been brought together in this combined volume. However, there is no change in the pattern hitherto followed in presenting the statistics on the various facets of economic and social structure of this Union Territory.

- 2. The value and usefulness of this publication have been enhanced by the inclusion of more tables bearing the 1961 Population Census data. The other new features include tables on estimated Marine and Inland fish production, settlement-wise figures for Education statistics, to mention a few.
- 3. The reference period of the data appearing in this issue varies with the nature of the subject. Generally, the data have been presented for the financial years 1962-63, and 1963-64 or the calendar years 1962 and 1963.
- 4. The figures, including the totals, have been rounded off neglecting less than half and taking half and more than half as one. Wherever a total differs from the sum of individual ligures, the difference, except where otherwise stated, may be taken to be due to such rounding.
- 5. The valuable co-operation, extended by Departmental officials, Mayors of Communes and members of the public in the collection of data appearing in this issue, is gratefully acknowledged.
- 6. Although this publication is brought out by an office of the Government of Pondicherry, the views expressed therein are not necessarily those of the Government.
- 7. Suggestions, if any, for the improvement of this publication, will be gratefully accepted.

Bereau of Statistics & Evaluation, Pondicherry-1 October, 1965.

S. MUTHUBASAVAN, Director.

Statistics relating to rainfall, temperature and relative humidity are presented in this section.

Tables 2.1 to 2.5: These tables show the annual and seasonwise rainfall in Pondicherry, Karaikal, Mahe and Yanam for the years 1950-51 to 1963-64 (June to May). The data have been compiled from the monthly returns received from the Public Works Department, Pondicherry. For seasonwise rainfall, the year has been divided into 4 periods: South West Monsoon (June to September), North East Monsoon (October 10 December), Winter (January to February) and Hot Weather (March to May). Normal rainfall is the simple arithmetic average of data for 30 years 1930—60 (June -May). Figures have been given in millimetres and inches.

Table 2.6: This table gives the maximum, minimum and mean temperature at Pondicherry for the years 1954 to 1963. Figures are given in degrees Fahrenheit and Centigrade. Data regarding relative humidity have also been included in the table. Monthly figures have been given for the year 1963.

3. AREA AND FOPULATION

Statistics relating to area and important aspects of population such as growth of population, rural and urban population, sex ratio, density of population, literacy, scheduled caste population, institutional and houseless population, economic classification of the population, age distribution and distribution of population by mother tongue are presented in this section. Tables appearing in this section are based upon the final results of the 1961 Population Census.

- Table 3.1: This table presents the total population of the Union Territory of Pondicherry from 1901 to 1961 alongwith the variation in population from one census to the other.
- Table 3.2: Gives the area and density of population by Regions. Figures of area are according to Survey of India and population is according to 1961 Population Census.
- Table 3.3: Sex-wise break-up of population in rural and urban areas by Regions according to 1961 Census is given in this table. Pondicherry and Muthialpet Towns in Pondicherry Region, Karaikal Town in Karaikal Region, Mahe Town in Mahe Region and the entire Yanam Region have been treated as urban areas by the Census Organisation.
- Table 3.4: Population and Sex-Ratio of all the five Towns in this Territory according to 1961 Census are given in this table.
- Table 3.5: Commune-wise data regarding the number of census houses, census households, the number of inhabited villages and towns, rural and urban population according to 1961 Census are included in this table.
- Table 3.6: This table gives the Region-wise distribution of villages according to size of population as per 1961 Census.
- Table 3.7: This table contains Commune-wise area according to Village Papers, population by sex, sex-ratio and density of population as per 1961 Census.
- Table 3.8: The number of literates and educated persons classified by sex and literacy rates in rural and urban areas in each Region of the Territory are given in this table.
- Table 3.9: This table gives Commune-wise statistics relating to number of literate and educated persons and literacy rates.
- Table 3.10: This table presents Region-wise Scheduled Caste population by sex and percentage of Scheduled Caste population to total population in rural and urban areas.
- Table 3.11: Commune-wise Scheduled Caste population by sex and ratio of Scheduled Caste population to total population are given in this table.
- Table 3.12: Statistics relating to institutional and houseless population by Communes and sex are included in this table.
- Table 3.13: This table contains Region-wise distribution of population by workers into 9 industrial categories and non-workers and by sex.
- Table 3.14: This table deals with the Region-wise distribution of population by workers and non-workers in rural and urban areas.

- Table 3.15: This table is devoted to percentage distribution of population of each sex by workers into 9 industrial categories and non-workers in each Region of the Territory.
- Table 3.16: Percentage distribution of workers of each sex into 9 industrial categories in each Region is shown in this table.
- Table 3.17: This table furnishes Commune-wise distribution of population by workers into 9 industrial categories and by non-workers.
- Table 3.18: This table presents the population classified according to mother tongue and sex in each Region of the Territory.
- Table 3.19: This table gives Region-wise distribution of population by age-groups and sex.

4. AGRICULTURE

In most of the states, the monthly cultivation accounts maintained by the Karnams (Revenue Department) form the basis of agricultural statistics. Such accounts are not now maintained in this State. However, at the instance of the Bureau of Statistics, the Revenue Department asked the Karnams to furnish data in the forms prescribed by the Ministry of Food and Agriculture, Directorate of Economics and Statistics. The entire State has been surveyed. The extent of wet land, dry land and poramboke are available. There are 30 Karnams in the Revenue Department. The jurisdiction of each Karnam is about 6 square miles. Since monthly cultivation accounts are not maintained, each Karnam supplied some rough estimates for his circle. Based on these returns, the data have been compiled by the Bureau of Statistics. Obviously, therefore, collection of agricultural statistics in this State is not satisfactory.

Figures given in this section relate to land utilisation, area irrigated by different sources, crop acreage and agricultural production for the years 1960-61 to 1962-63 (July to June). For the years 1961-62 and 1962-63 figures for each region have been given. The statistics for the year 1962-63 in respect of Pondicherry Region have been collected by the field staff of the Bureau by complete enumeration under the scheme "Collection of Agricultural Statistics". Hence the data for (1962-63) are not strictly comparable with those of previous years. Statistics relating to the agricultural machinery and implements and agricultural wages are also included in this section.

- Table 4.1: This table is devoted to land utilisation—statistics. Generally, the standard definitions of the categories of land adopted in this table are those recommended by the Ministry of Food and Agriculture, Directorate of Economics and Statistics.
- Table 4.2: Shows data relating to net area under irrigation according to modes of irrigation, area irrigated with crops more than once during the year being counted once only. Area irrigated by spring-channels, ponds etc., are included in 'Other sources'.
- Table 4.3: This table gives data regarding area under irrigation according to cropwise distribution. Irrigated area sown with crops more than once during the year is counted as separate area for each crop.
- Table 4.4: This table furnishes information regarding area under all crops. Total area under crops irrigated and unirrigated is included in this table.
- Table 4.5: Gives data relating to the production of principal crops in this State. Production of each crop has been worked out separately for each region on the basis of the estimates of yield per hectare furnished by the Karnams.
- Table 4.6: This table furnishes information relating to number of agricultural machinery and implements in Pondicherry, Karaikal, Mahe and Yanam. The figures are according to the Livestock Census, 1961.
- Table 4.7: Information regarding the average daily wage rates paid to agricultural and skilled labour at Thirukkanur in Pondicherry Region for the years 1960-61 to 1963-64 is presented in this table.

The statistics of livestock and poultry, veterinary institutions, livestock mortality by causes, marine and inland fish production are included in this section.

- Table 5.1: This table presents the statistics of livestock and poultry population of this Union Territory by Regions. It gives detailed information about the number of livestock and poultry in each category according to the Quinquennial Livestock Census, 1961.
- Table 5.2: This table furnishes information regarding veterinary aid available in this Territory.
- Table 5.3: Information relating to the reported number of attacks and deaths of live-stock and poultry according to causes from 1960-61 to 1963-64 is given in this table.
- Table 5.4: This table gives region-wise information regarding the livestock mortality due to causes for the year 1963-64.
- Table 5.5: Estimates of variety-wise marine fish production from 1960 to 1963 are included in this table. Region-wise data are given for the years 1962 and 1963.
- Table 5.6: This table shows the estimated production of inland fish from 1960 to 1963. For the years 1962 and 1963 region-wise data are furnished.

This section is devoted to Medical and Vital Statistics. Information about the number of hospitals, dispensaries, beds and medical personnel have been furnished by the Chief of Health Services. Data regarding number of births, deaths by causes and age groups have been compiled from the monthly returns sent by the Mayors to the Office of the Chief of Health Services.

Number of hospitals, dispensaries and beds is given in Table 6.1. Table 6.2 shows the number of Medical Personnel.

Table 6.3 furnishes information regarding progress of B.C.G. vaccination in each settlement.

Number of cases treated in Hospitals and dispensaries is given in Table 6.4. Table 6.5 gives information regarding Birth control statistics.

Table 6.6 shows the distribution of live-births, still-births and deaths by settlements.

Table 6.7 presents live birth rate and death rate per thousand population and still birth rate per thousand live and still births. The formulae used are as follows:

Live-birth rate/Death rate per '000 = Total live-births/deaths × 1000 |

Still-birth rate per '000 still-births = Total still-births × 1000 |

Total live-births + Total still-births.

Straight lines have been fitted up with 1958 as origin. Tables 6.8 and 6.9 deal with the number of deaths due to various causes.

Tables 6.10 and 6.11 deal with the number of deaths by different age groups.

*Infant mortality rate per thousand live births works out to 127.5 in 1962 and 122.6 in 1963.

Source: Office of the Chief of Health Services, Pondicherry.

This section deals with education statistics. The data relate to all the educational institutions functioning in the state irrespective of the source of expenditure. Figures are generally presented for five years 1956-57 and 1960-61 to 1963-64. The system of education in this state is given in the following table.

	Med	lium o	of ins	tructio	on/Sta	ge		Name of classes	Duration
11114 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2			1					2	3

Table 7.1 gives the number of institutions by type. Figures for government and private institutions have been given separately for 1963-64 only.

Table 7.2 gives the Region-wise distribution of number of institutions for General Education by type during 1963-64.

Table 7.3 deals with the number of Pupils on rolls by sex and type of institutions. The number of boys given against each type of institution represents the total number of boys studying in both boys' and girls' institutions of that type. Similarly the number of girls against each type of institution represents the number of girls studying in the institutions of that type for boys and girls put together. Figures for government and private institutions have been given separately for 1963-64 only.

- Table 7.4 gives the Region-wise distribution of number of students in institutions for general education by type during 1963-64.
- Table 7.5 shows the number of teachers by sex and type of institutions. Figures for Government and Private institutions have been given separately for 1963-64.
- Table 7.6 shows the Region-wise distribution of the number of teachers in institutions for General Education by type during 1963-64.
 - Table 7.7 shows the strength of the Directorate of Public Instruction.
- Tables 7.8 and 7.9 deal with distribution of students by age-groups in institutions for general education and for professional, technical and special education.
 - Table 7.10 gives the distribution of scholars by classes in institutions for general education.
- Tables 7.11 and 7.12 deal with the number of students who appeared and passed in various examinations.
- Tables 7.13 and 7.14 deal with expenditure on education by sources and type of institutions.
- Table 7.15 gives information regarding adult education, namely, the number of literacy centres, number of scholars on rolls, adults made literate, teachers and expenditure.

This section is devoted to State budget, statistics relating to small savings, life insurance and banking.

- Table 8.1: This table gives a summary of the general budgetary position of the Government of the Union Territory of Pondicherry on revenue and capital accounts.
- Table 8.2: Broad classification of Revenue and Expenditure met from revenue is shown in this table.
- Table 8.3: Data relating to revenue from individual taxes and duties are presented in this table.
- Table 8.4: This table gives information regarding the revenue receipts from various sources of non-tax revenue.
- Table 8.5 deals with the distribution of expenditure met from revenue by development and non-development heads.
- Tables 8.6 to 8.9 give the item-wise expenditure on direct demands on the revenue, administrative services, social services and economic development, respectively.
- Table 8.10: This table furnishes data relating to capital expenditure on various items of works.
- Table 8.11: This table presents the statistics relating to loans and advances issued by the Government both under plan and non-plan heads.
 - Table 8.12 deals with the assessment and collection of important taxes.
 - Table 8.13 shows the data relating to revenue from state excise by commodities.
- Tables 8.14, 8.15 and 8.16 furnish information regarding the number of assessees and amount of income-tax collected.
 - Table 8.17 deals with the statistics relating to collections under small savings.
 - Table 8.18 gives statistics relating to life insurance.
 - Table 8.19 shows the operation of scheduled banks.
- Tables 8.20 and 8.21 present the balance sheets of State co-operative bank and co-operative urban banks, respectively.

9. LOCAL BODIES

Pondicherry State comprises of four settlements namely Pondicherry, Karaikal, Mahe and Yanam. Each settlement is divided into Communes, 8 in Pondicherry, 6 in Karaikal and one each in Mahe and Yanam. Each commune comprising of a group of villages, is being administered by a municipal council under the leadership of a Mayor. The municipalities (Mairies) in this State are neither municipal councils nor major panchayats as understood in the rest of India.

- Table 9.1: This table presents the summary of all the municipalities for the calendar years from 1957 to 1963. Total receipts are classified into ordinary and extraordinary and total expenditure into compulsory, facultative, supplementary and extraordinary.
- Table 9.2: This table gives total receipts and expenditure of each municipality by communes for the calendar years from 1959 to 1963.

Ordinary Receipts: Revenue from the municipal properties, concessions granted by the State government on certain taxes, stall rents collected in the markets, slaughter houses etc., parking duties in public squares and roads, tool fees, fees charged for the issue of birth death and marriage certificates etc., constitute ordinary receipts.

Extraordinary Receipts: Grants, subsidies and loans from the government are included in this category.

Compulsory expenditure: Expenses on general administration, tax collection, health, census and graveyards come under this category.

Facultative expenditure: Expenses on public works, police, pond, supervision of markets etc., constitute facultative expenditure.

Extraordinary expenditure: Expenses met out of grants and subsidies from the State government for undertaking certain works are included in this category.

Supplementary expenditure: Expenses met from the supplementary budget of the municipality come under this category.

11. PRICES

Wholesale and retail prices are collected every Friday from Pondicherry market. In the case of wholesale prices, 70 quotations are collected for 42 commodities and in the case of retail prices, 71 quotations for 50 commodities. The wholesale prices are secondary prices and the quotations relate to the model price *i.e.*, the price at which most of the transactions take place. They relate to the actual transactions, nominal quotations are being avoided.

Table 11.1 gives wholesale prices (averages of weekly quotations) in Pondicherry for the years 1958-59 to 1963-64 and monthly figures from April 1963 to March 1964. Wholesale prices are in rupees per quintal (or 100 kg. or 2.67923 standard maund of 822/7 lbs.) except where otherwise stated.

Table 11.2 gives retail prices (averages of weekly quotations) in Pondicherry for the years 1958-59 to 1963-64 and monthly figures from April 1963 to March 1964.

12. CO-OPERATION

The Madras Co-operative Societies Act, 1932 (VI of 1932) was extended to Pondicherry State in 1955. The data presented in this section give an idea of progress achieved under co-operation. The data are given for seven years from 1958 to 1964 and give position as on 30th June of each year. Societies are classified into 2 main categories: credit and non-credit societies. Figures for the year ending 30th June, 1964 are provisional.

Table 12.1 gives information regarding progress in co-operation in general namely, the total number of societies, members, working capital, etc. Working capital is the sum of share capital paid up, deposits, loans, reserve and other funds. It also gives the average working capital per head of population.

Table 12.2 gives the progress achieved in the field of co-operation according to type of societies.

(Amount in '000 Rupees)

स्थापेन नपने

This section presents data relating to employment in public and private sectors, data relating to employment exchange, and wages paid to agricultural and skilled labourers.

Tables 13.1 to 13.3 present results of the census of Government employees. All the employees working in the offices of the Pondicherry State Government and its industrial and commercial undertakings have been included. For this census, those who are on the pay rolls of the establishment have been taken as regular staff. The staff paid from contingencies, work-charged personnel, and those employed on daily wages have been classified as non-regular staff. Casual daily rated labour employed for less than a month and contractor's labour have not been included. The ex-French employees whose pay scales start with a minimum of Rs. 300 or more have been taken as gazetted officers. Those who have been confirmed and hold substantively the post against which they are shown, on the date of census, have been taken as permanent. Permanent employees though working temporarily or officiating in any temporary post on the date of census, have also been taken as permanent. All those who are not confirmed and do not hold substantively any post on the date of census have been taken as temporary. Persons appointed in leave arrangements and temporary employees officiating in permanent posts have been shown as temporary. Basic pay includes personal or special pay, if any, but excludes dearness and other allowances.

Table 13.4 gives the number of labourers employed in the textile industry by age-group and sex. Table 13.5 furnishes information relating to labour employed in various shifts and departments in respect of textile industry. Average number of working days, spindles run in per shift and looms worked per shift are also included. Figures have been extracted from the "Indian Textile Industry Statistical Bulletin", issued by office of the Textile Commissioner, Bombay.

Tables 13.6 to 13.8 give the number of industrial disputes, industrial accidents and the compensation paid for industrial accidents. The figures presented in these tables are tentative.

Tables 13.9 and 13.10 relate to the number of employees in co-operative societies and the wages and salaries paid to them respectively.

There is only one employment exchange in this state located in Pondicherry town. Table 13.12 shows the number of registrations and placements effected by the Pondicherry employment exchange.

- Table 13.12 relates to the progress of live register of the employment exchange and output of educational institutions.
- Table 13.13 relates to occupational distribution of applicants on the live register still seeking employment assistance from employment exchange.
- Table 13.14 gives distribution of applicants on the live register still seeking employment assistance from employment exchange according to educational qualifications.
- Tables 13.15 shows the progress of employment in the Public sector and table 13.16 shows the changes in the volume of employment by industries in the Public and Private sectors put together. The data have been collected under the Employment Market Intelligence Scheme.

14. INDUSTRY

This section deals with industrial production of some of the important industries of this State, namely, cotton textiles, sugar, vegetable oils, oil-cakes, matches and country spirits.

Tables 14.1 to 14.5 give statistical data relating to cotton textiles which have been taken from the Indian Textile Industry—Statistical Bulletin issued by the Textile Commissioner, Ministry of Commerce and Industry. Table 14.1 gives the number of spindles and looms installed. Tables 14.2 and 14.3 include data relating to production of cotton yarn and cloth respectively, based on monthly average. Tables 14.4 and 14.5 provide data on cotton yarn delivered for civil consumption and cloth delivered for civil consumption respectively.

The new Horison Sugar Mill, Ariyur, went into production during September 1960. Table 14.6 gives the monthly production of sugar.

The data relating to production of vegetable oils and oil-cakes are being collected only from the mills which are power-driven situated in Pondicherry settlement. The data have been compiled from the monthly returns received from these mills and are presented in Table 14.7.

Production, sale and stock position in respect of handloom industry under co-operative fold have been given in Tables 14.8 and 14.9.

The number of societies, their membership and other information in respect of weavers co-operative societies have been given in section II.

Production of matches is being compiled from the monthly returns received from the manufacturers and is set out in Table 14.10.

Table 14.11 furnishes data relating to production of country spirits by the Government distillery, Pondicherry.

15. TRANSPORT AND COMMUNICATIONS

- Table 15.1 furnishes length of roads under the charge of the Public Works Department.
- Table 15.2 provides information regarding the number of motor vehicles on road as at the end of the years 1956 to 1963.
 - Table 15.3 gives number of accidents reported during the years 1955 to 1963.
- Table 15.4 gives information about port traffic, namely, number of ships, tonnage of ships, tonnage of merchandise imported and exported, for Pondicherry port only. Similar data relating to traffic of country boats have also been given in this table.
- Tables 15.5 to 15.7 provide information about the number of post and telegraph officers, telephones, public call offices and broadcast receiver licences issued.

Tables relating to inland trade, foreign trade of merchandise by sea and value of import and export licences issued to merchants in Pondicherry State are presented in this section.

Tables 16.1 and 16.2. These tables give data regarding imports into and the exports from Pondicherry-Karaikal trade block of 64 commodities by rail and river during the financial years 1957-58 to 1963-64 respectively. These tables are based upon the annual statements received from the Director General of Commercial Intelligence and Statistics, Calcutta.

Table 16.3: This table furnishes annual data regarding value of imports into and exports from Pondicherry and Karaikal ports for the years 1940-41 to 1948-49 and from 1955-56 to 1963-64. Figures for the years 1949-50 to 1954-55 are not available. Data from 1940-41 to 1948-49 have been extracted from the Annual Statements of the Foreign Sea and Air-borne Trade of India issued by the Director General of Commercial Intelligence and Statistics, Calcutta. Data for the subsequent period have been compiled from the monthly statements received from the Collector of Customs, Madras and the port commodity tabulations issued by the Director General of Commercial Intelligence and Statistics, Calcutta.

Tables 16.4 and 16.5: Data regarding the value of sea-borne foreign trade by sections and divisions for the calendar years 1959 to 1963 according to the revised trade classification adopted from 1st January 1947 are furnished in these tables. These figures have been compiled from the numeric port commodity tabulations issued by the Director General of Commercial Intelligence and Statistics, Calcutta.

Tables 16.6 and 16.7: Information about the value of import and export licences issued to merchants in this State for each licensing period have been included in these tables. These tables were compiled from the monthly statements furnished by the Controller of Imports and Exports, Pondicherry and give position as on 31st March, 1964.

17. FUEL AND POWER

This section presents statistics relating to fuel and power.

Progress in the field of electrification and production and consumption of power in respect of Pondicherry Settlement for the years 1954-55 to 1963-64 have been presented in Tables 17.1 and 17.2. Tables 17.3 and 17.4 give similar information for the State as a whole (settlementwise) for the years 1963-64. Particulars in respect of Yanam Settlement for the year 1963-64 are not available.

Table 17.5 provides information on consumption of petrolcum products during the years 1954 to 1963. Table 17.6 gives data on consumption of coal for industrial purposes during the years 1954-55 to 1963-64. These statements relate to Pondicherry settlement only.

18. JUDICIAL AND ADMINISTRATIVE STATISTICS

This section presents statistics relating to cases decided in courts, cognisable crime, property stolen, strength and cost of civil police, jails and fire accidents.

- Table 18.1 contains information about the number of cases decided in different courts namely, Court of Appeal, Court of First Instance and Justice of Peace during the years 1954 to 1963.
- Table 18.2 gives figures relating to cognisable crime reported by type of offence for the years 1955 to 1963.
- Table 18.3: This table presents data regarding the number of police stations and outposts, strength of police force by designation and total expenditure on police during the financial years from 1955-56 to 1963-64.
- Table 18.4 gives number and distribution of prisoners, daily average number of prisoners, place of confinement, number of prisoners received and discharged during the years 1957 to 1963.
- Table 18.5 contains information about the distribution of convicts by age-groups and by sex for the years 1957 to 1963.
- Table 18.6 gives the data relating to the nature and length of sentences of convicts admitted into jails by sex for the years 1957 to 1963.
- Table 18.7 furnishes information regarding sickness and mortality among prisoners during the years 1957 to 1963.
- Table 18.8 gives expenditure incurred in guarding and maintaining prisoners for the years 1957 to 1963.
- Table 18.9: This table presents data regarding the property stolen and recovered during the years 1957 to 1963.
- Table 18.10 gives figures relating to number of fire stations, number of calls attended and estimated value of property lost during the years 1957 to 1963.

19. EXCISE

This section deals with the number of shops licensed for selling toddy, liquors and opium, rates of State excise duty on liquors, and consumption of country spirits, opium and liquors.

Table 19.1 presents data regarding number of licensed toddy, liquor and opium shops as on 31st December for the years 1954 to 1963.

Table 19.2 gives the rates of excise duty on liquors.

Table 19.3. Information regarding consumption of country spirit, opium and liquors during the years 1954 to 1963 are furnished in this table.

This section gives achievements under the Community Development Programme in respect of each block. On 31st March, 1964, there were 3 5/6 blocks in the State, Pondicherry—a double block, Karaikal—single block, Mahe—half-a-block and Yanam—one-third block. These blocks cover 99.5% of the total area of the State, 100% of villages and 89% of population.

Pondicherry Block.—The National Extension Service Block was inaugurated in Pondicherry Region in May, 1955 with its headquarters at Villianur. It is a double block with one administrative unit, covering an area of 287.5 sq. km. (111 sq. miles) with a population of 2,18,140. It consists of the entire Pondicherry Region excluding Pondicherry town. This block was converted into a Community Development block on October 1957, six months ahead of the usual tenure of three years, because of its good progress. Since 2nd October, 1960 it is a Stage II block.

Karaikal Block.—The N.E.S. Block in Karaikal was inaugurated in October, 1956 with its headquarters at Thirunallar. At present its headquarters is at Thalatheru. This block constitutes the entire Karaikal Region including Karaikal town, covering an area of 158.0 sq. km. (61 sq. miles) with a total population of 84.001. With effect from April 1958, due to revision in the Community Development Programme, it is treated as Stage I block. Since 1st April, 1962 it is a Stage II block.

Mahe Block.—The pre-extension block at Mahe was inaugurated on 1st April, 1959. It is only half-a-block with its headquarters at Pallur. This block covers the entire Mahe Region with an area and population of 10.4 sq. km. (4 sq. miles) and 19,485 respectively. This block entered Stage 1 in April, 1960.

Yanam Block.—The pre-extension Block at Yanam was inaugurated in May, 1963. It is a one-third Block with its headquarters at Yanam. This Block covers the entire Yanam region with an area and population of 20.7 sq. km. and 7,032, respectively. On May, 1964 it will enter into Stage I status.

- Table 20.1 shows the staff position as on 31st March, 1964.
- Table 20.2 gives the number of blocks allotted, area, population and main villages covered by these development blocks.
- Table 20.3 gives cumulative particulars on government expenditure and people's contribution up to 31st March, 1964.
 - Table 20.4 gives year-war and Block-war government expenditure by Major Head.
 - Table 20.5 gives year-war and Block-war people's contribution by Major Head.
- Table 20.6 gives year-war and Block-war government expenditure and people's contribution.
 - Table 20.7 gives the physical achievement in block areas.

This section deals with financial aspects of the Five Year Plans—Pondicherry State. Information on the schemes to be implemented by the State Government and Central Government have been given separately in all the tables. Figures for the First Five Year Plan relate to the period 1st November, 1954 to 31st March, 1956 since planning was introduced immediately after the de facto transfer of the administration to the Government of India.

Tables 20.1 and 20.2 give the data regarding distribution of plan outlays by sectors of economy and heads of development respectively. Figures have been incorporated for all the three plans.

Table 20.3 presents the distribution of outlay for the Third Five Year Plan by heads of development on spill-over schemes, new schemes, capital expenditure and foreign exchange requirements.

Table 20.4 gives an idea of phasing of the outlay as originally proposed in respect of the Third Five Year Plan.

Table 20.5 shows the progress of expenditure by various heads of development under the Third Five Year Plan.
